

OVERVIEW

Rensol Technologies is a Microsoft Certified Partner and an ISO 9001:2015 and ISO 27001:2013 certified company. Established in 2001, Rensol is a medium-sized software services firm delivering innovative business solutions to global clients from its offices in India, Australia, and Singapore.

Rensol has successfully supported numerous membership-based organizations using an internationally acclaimed software product and also using its own software product named SLengage. Some of the organizations that used Rensol's support and products include Aeronautical Society of India (patronage includes our first Prime Minister Pt. Nehru, our Ex-President Dr. A.P.J. Abdul Kalam, who was Secretary General of this institute), Plan India (a well known non-profit organisation), Indo French Chamber of Commerce and Industry (with over 650 company members and a total network of more than 6,500 individual members), Singapore Business Federation (with more than 450,000 members), Singapore Infocomm Technology Federation (SGtech), Focus on the family, a charity organization of Singapore, amongst several other organizations.

FEATURES

Membership Management

Association members as individuals or representing a company are included in the database. Members can pay online as per the defined periodicity. The invoices and receipts are sent by the portal automatically. The portal allows for KYC by storing the documents such as Aadhaar Card, PAN, TAN.

Event , News and Notice board Management

The association can create and display events/News. Interested members or non members can register for the event by paying online/offline. There can be free events as well. The portal also allows management of notices.

Membership Self Service

Members can manage their profiles by changing their data as required such as contact numbers or any personal data available in database. This allows the data in the database to be up-to-date.

Mobile Access

The members can view all the data permissible from mobile devices such as mobile phones or tabs.

Content Management

This portal allows administrator of the association to create and display news, events including text , pictures etc on their own. Hence, the association need not contact the portal administrator to manage the site for them.

Association home page

For each association, a home page and other linked webpages can be created. The pictures, textual contents, videos etc can be changed by the association manager. Association's website can also be integrated.

Online/Offline Payment

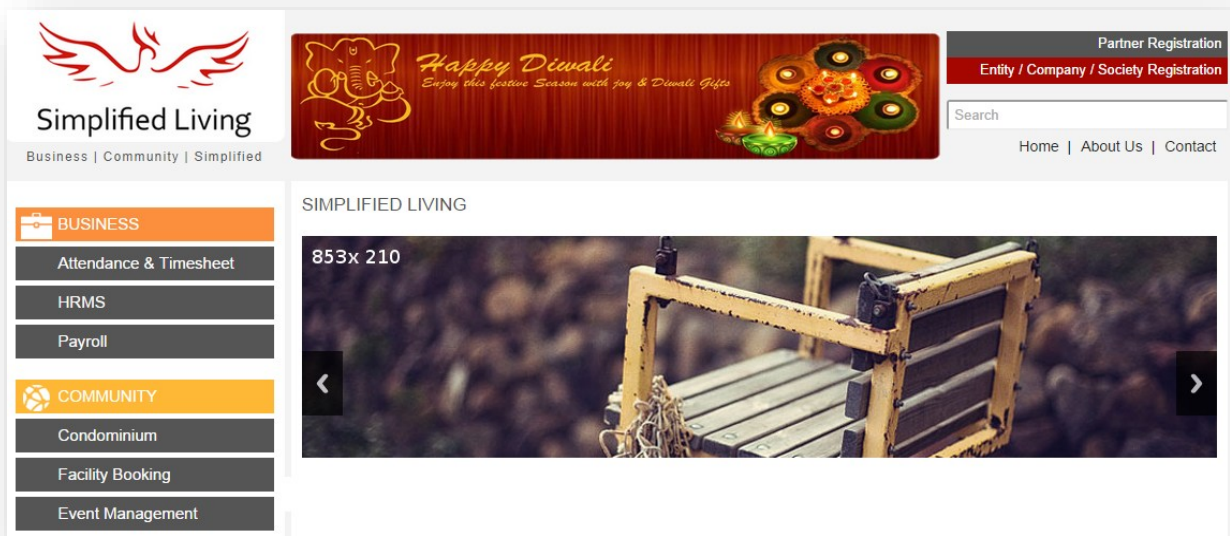

The portal allows for online payment using credit card/ debit card, digital wallet, netbanking. Invoices and Receipts are automatically generated and emailed. Options to add GST automatically to invoices and bills.

Subscription based

This software is subscription based. Interested Association need not purchase any application server or database server. All that is required is a PC with good internet connection . Management tasks such as keeping backup, housekeeping are taken care of by the portal automatically. On premise option is also available.

SIMPLIFIED LIVING- SEngage – Association Management Solution

SECURITY

The software is hosted on secure Microsoft Azure servers. Please contact us for registration and further use. For on premise option and customisation, the product can be hosted on any secure infrastructure.

For application security, multifactor authentication, role based security, encrypted password are used to make the solution robust and secure. Confidentiality is maintained - powerful access rights built in so that people view only what they are allowed to view.
